National Emergency Response and Rescue Training Center

Jurisdictional Threat and Hazard Identification and Risk Assessment

MGT-310

The purpose of this course is to prepare participants to conduct a Jurisdictional Threat and Hazard Identification and Risk Assessment (THIRA). Participants will identify threats and hazards of jurisdictional concern, give those threats and hazards context, establish capability targets, and determine how to apply the THIRA results. The course will assist local emergency responders and stakeholders in identifying the critical infrastructure that may be at risk in their jurisdiction. By using the THIRA process, stakeholders will develop a strategy to allocate resources and establish mitigation and preparedness activities. THIRA-informed planning is consistent with and expands on nationally accepted emergency management standards as the basis for planning across the mission areas of prevention, protection, mitigation, response, and recovery.

Training Level:

Management and Planning

Venue:

Jurisdiction

Course Length:

Two days (16 hours)

Participant Audience:

Emergency response level, supervisory and/or management personnel who respond to or have oversight responsibility for incidents caused by terrorism, natural disaster, major accidents and all other hazards. Course participants include responders from the following disciplines/services:

- Law Enforcement
- Fire Service
- Emergency Medical Services
- Hazardous Materials
- Public Health and Health Care
- Public Works
- Emergency Management
- Public Elected Officials
- Public Safety Communications
- Governmental Administrative

Personnel from the private sector, non-governmental organizations, schools, and the military are also allowed to attend if invited or approved by the host jurisdiction.

Continuing Education Units:

IACET - 1.6 CEUs

Prerequisites:

Participants should work in one of the listed disciplines, have completed a WMD/terrorism awareness level course, or be approved by the local jurisdiction host. Completion of the online courses IS-700.a (NIMS - An Introduction) and AWR-160 (WMD/Terrorism Awareness for Emergency Responders) is recommended but not required. The DHS/FEMA NTED course AWR-160 is offered online by TEEX at: <http://teex.com/nerrtc>.

Class Size:

24-40 participants
